His Holiness Brahmurishi Shree Kumar Swamiji was born on 22 January, 1954 in a farming family in Karanpur, Rajasthan, India. His spiritual quest started in early teens and carried through his adulthood when he studied and practiced various spiritual streams. At the young age of twelve years, he wanted to rise above the complexities of life as a result his life took the direction of spiritual search. In his quest for search for wisdom he became associated with many spiritual saints in India such as J. Krishnamurti, Osho, Nirankari Baba, Vimla Thakaar, Maa Anandmayi, Shree Omkarnath Thakur, Yogi Swami Ram, Lahari Baba, Harihar Baba, Devaria Baba, Shivpuri Baba, Swami Sahajanand, Taat Baba, Vishwatma Baba, Pathik Ji Maharaj and Punja Baba.

He acquired deep knowledge in Ayurveda, an ancient science of medicine. Later, he was regarded as one of the best Ayurvedic physicians in the world. He has given a new direction to the modern medical science by combining the knowledge with Ancient Traditional Science.

In Gurudev’s words “He has acquired the Ancient Traditional Science Secrets after a long and arduous spiritual journey”.

Ancient Traditional Science Secrets

The Ancient Traditional Science Secrets, according to Gurudev, consist of short and simple "Names of God" in a word. These simple words are combined to create Beej Mantras. Practicing the divine Beej Mantras for a short time every day, frees one from sorrows and problems of mind, body and finance. Gurudev has simplified the practicing of Beej Mantras. He provides the Beej Mantras for free, at the conventions organized in various parts of the world. More than 500 million people around the world are practicing these Beej Mantras regularly and have been benefitted by them.

Essence of All Religions in an Easy and Scientific Format

Ancient Traditional Science Secrets have been derived from the ancient scriptures of all the religions and have been molded into a scientific format; practicing them for a short period, twice a day brings immense positive results in one's life. One need not follow a specific religious doctrine or philosophy to practice the scientific tools of eternal wisdom.

Science Meets Spirituality

Since the beginning of the nineties, His Holiness Brahmishi Shree Kumar Swamiji has travelled around India and the world to convey his message. Initially, the scientists and spiritual thinkers were not ready to look at spirituality from a scientific angle. However, Gurudev's path of presenting a scientific form of spirituality helped eradicate several speculations. Today, more and more people from the science fraternity are eagerly embracing and accepting the tools of Ancient Traditional Science Secrets.

Scientific Tests of the Spiritual Powers of His Holiness Brahmishi Shree Kumar Swamiji

A multi-step clinical test was conducted on His Holiness Brahmishi Shree Kumar Swamiji at a research lab in Bangalore, India which is run by Govt. of India's Ministry of Science and Technology.

In the first step, Gurudev's physical examination was conducted when he was in a deep meditative state. The medical doctors were astonished to find that while the monitoring instruments indicated normal heartbeat and brain activity; no pulse was detectable. After prolonged analysis the scientists and doctors accepted that his physical body has reached a state which is unexplained by current modern medical science.

In the second step, Gurudev was asked to visually look at other patients at the facility and provide their medical diagnosis without knowing their prior medical history. The patients were brought

to him one by one. He would look at the patient for a few seconds and diagnose their medical issues in detail. The doctors were surprised as his diagnosis was absolutely accurate in each case.

An European woman was also examined by Gurudev as part of this exercise. After looking at her, Gurudev told her that she was suffering from a very serious disease which she had not disclosed to the doctors. Although startled, the woman was not ready to accept his statement. Gurudev looked at her with compassion and told her that she had AIDS. Astonished at the revelation, she fell at Gurudev's feet and accepted that the diagnosis was correct and she had deliberately not disclosed the information to any of the medical doctors at the facility.

There are numerous such examples which illustrate Gurudev's spiritual powers to diagnose and heal a patient by looking at them.
